Talbot Group Mission and Values

Our services are provided in line with our Vision, Mission and Values.

Our Vision
The delivery of exceptional quality person centred care in a home like environment.

Our Mission
Empowering and supporting residents to be as independent as possible and to live meaningful and fulfilling lives.

Our Values
Dignity
Respect
Kindness
Engagement
Introduction

For more than a decade the Talbot Group has been providing residential and day services for adults who have an Intellectual Disability, Autism Spectrum Disorder, Acquired Brain Injury and who may also have mental health difficulties, together with other complex needs. The Talbot Group also provides residential respite services for adults. We provide services for people at a variety of locations located in Dublin, Meath, Louth and Cavan.
Our Services

Residential Services
The Talbot Group promotes independence of adults in our residential service to maximise their quality of life through appropriate interventions and supports. This approach is underpinned by Positive Behaviour Support in line with our model of Person Centred Care and Support. Our services are provided in a home like environment that promotes dignity, respect, kindness and engagement for each resident. We encourage and support residents to participate in the community and avail of amenities and recreational activities in their locality.

The Talbot Group has considerable expertise in the provision of I.D. Services and a Multi-Disciplinary team of fully trained staff to provide support and care to residents.

Autism Service
The Talbot Group provides an Autism Specific service at our purpose built Meadowview bungalows in Stamullen. The Talbot Group Autism Service has been accredited by the UK’s National Autism Society.

Respite Service
To address the needs of families who support family members with disabilities to live at home, we have extended our service to include the provision of Respite for this service user group.

We understand the importance for families who have young adults with an intellectual disability and complex needs to have regular and planned breaks in order to allow them to continue their important role in caring for and providing support to their family member on an ongoing basis. These frequent rest and respite periods sustain families and may avoid a situation where full time residential care is the only option available to the family.
Talbot Model of Person Centred Care and Support

The Talbot Group delivers services in line with the Talbot Model of Person Centred Care and Support®. This model, developed by the Talbot Group, is underpinned by the principles of Positive Behaviour Support.

Pathway of Care

At Talbot Group Services we are committed to a Person-Centred Planning approach helping residents to be as independent as possible and live meaningful and fulfilling lives. As part of the process, a pathway of care is developed with each resident led by our Head of Psychology.

The supports, services and specific pathway are tailored to the residents needs and goals. Through this process individuals take on more autonomy and the team supports them to develop the life skills required to live a more independent life.

Multi Disciplinary Team Support

To meet the needs of each resident and to provide the most appropriate supports the Talbot Group has a full time Multi-disciplinary Team which provides specialised individual assessment and interventions for all residents.

Our Multi-disciplinary Team includes the following disciplines:

- Psychiatry
- Psychology
- General Practice
- Nursing
- Occupational Therapy
- Physiotherapy
- Speech and Language Therapy
- Positive Behaviour Support Specialist
- Social Work
- Dietetics
- Social Care
- Community Activation Staff

* Other clinical services are also provided for all residents as required including dental services, and chiropody.
Activities and Community Integration

The Talbot Group believes in empowering residents to live as independently as possible. We support residents in a variety of community houses. We have developed an array of facilities, training programmes and outreach support programmes to facilitate all residents in moving towards greater independence. Our service is based on taking a person-centred approach within the context of social inclusion and improved quality of life.

The Talbot Group also support residents to avail of job opportunities through our supported employment programme.

Community House and Locations

Our houses are based throughout counties Dublin, Meath, Louth and Cavan. Below is a selection of some of our Community Houses.
To Make a referral

We work in partnership with the HSE and are keen to assist in any way we can.

Referrals are generally made to us by the HSE or other health related agencies. Referrals can be made by emailing Amanda@TalbotGroup.ie
